"Let it snow day, was a blast"

25 enthusiastic club members showed up for a day of fun with Lorraine and her dogs. The dogs were happy to see everyone and take them for a long walk in their winter wonderland. After the walk it was back to Lorraine's house for a gourmet pot luck dinner and the adult version of Smores, (Red wine and marshmallows) around a campfire. Great camaraderie and talk about the upcoming sailing season.

Hard water sailors at it again !

The ice boaters have been out on the lake again this year getting some high speed thrills. I understand they have even got some serious bruises to prove it. Just tap one on the rear and see them groan.

More on the new rules !

If you have taken a look at section "C" of the new rules you will see that there are now three rules instead of two. (18, 19 & 20). The new one is 19 "Room to pass an obstruction". And, as said in the last newsletter, there is a new definition, "**Zone**" *the area around a mark within a distance of three hull lengths of the boat neared to it....."*

From Kelowna (where I am)

I woke up last Saturday and it was snowing heavily. I slipped out of bed, packed a lunch, loaded the car with skis, boots and all my stuff and started down the road with the wind blowing over 50 MPH. The radio said the roads to the ski hills were all closed so I went back home, undressed and slipped back into bed. My wife was still cuddled up and when I slipped in beside her I told her the weather outside was terrible. She simply said, "and can you believe my stupid husband is out skiing in this stuff?" Not sure if she was joking but I sure check the weather before leaving now.
