

U.F. CHRISTIAN CAMPUS HOUSE

THANK YOU so much for your Prayers for UFCCH

Wheelchair Ramp Building

One of the key components to the UF Christian Campus House Ministry is serving others. About two years ago we were introduced to Ericson Frank at Christians Concerned for the Community (CCC). As we learned more about CCC through Ericson we knew we wanted to be involved with them serving in our community. The main way we have served alongside them is by building wheelchair ramps at the homes of those in need of a safe, dependable way to exit and enter their home.

The last two ramps that we built were for Mrs. Sally and Mrs. Greene. Mrs. Sally is a sweet 93 year old lady that has blessed us more than we could ever bless her.

Since building the ramp for Mrs. Sally the UFCCH Man Church guys have gone to visit her three times. When we go we take her canned vegetables and sweets (at her request). During our visit we share life with her, read scripture and pray with her.

We built Mrs. Greene's ramp last week so she is new to us. Therefore, we have not yet returned to visit her but she said that it would be fine for us to do so. After we finished her ramp she tried it out successfully.

Wheelchair ramp building is not only a great way for the students of UFCCH to serve others in our community but also a great way for them to build community amongst themselves.

In building a ramp they have to work together, communicate with one another, problem solve together and rejoice together once the project is completed.

Thank you for your partnership, it allows UFCCH to offer students amazing opportunities to serve others in our community and beyond.

In "His" Grip!!! We Love Y-O-U !!

Bob, Celeste <><*
and our
UFCCH student family
